Sun Graphics  
President, Hiring Manager

May 31, 2015

Dear Diane Brown,

I am enclosing my resume in response to your need for a Graphic Designer.

I am a creative, hard working graduate (Dec 2014) from North Central State College in Mansfield, OH with a degree in Visual Communications and Media Technology/Digital Arts. I have a reputation with my instructors and peers as being a big picture thinker, who has a large resource of ideas. In every project I have shown that I am able to conceptualize the overall plan, pitch the idea and then break it down into manageable deadlines. The NCSC program has offered a range in opportunities to create and produce marketing and communication materials relevant to the real world, this along with my personal freelancing opportunities leads me to be confident in my skills as a designer. I am a quick learner and enjoy the team environment that allows you to grow and refine your skills.

During my studies, I have proven to be able to handle multiple projects for a variety of projects and classes simultaneously. In addition, I have managed a variety of projects and deadlines in my current position at Advantage Marketing, Not only have I handled them, but I have produced quality work. I inject creativity into each project while staying true to the function and needs of the project. My attention to detail pushes me to not be satisfied with anything less than professional quality in my work.

I know I have so much to learn, but I feel I have a great foundation to spring from. I am eager to take on new challenges and push my skills for each project I work on. I am comfortable on both Apple and Windows platforms.

The accompanying resume can provide you with more details on my experience. I would love for you to view some of my work at <http://barbiewaters.businesscatalyst.com>

Thank you for your time and consideration.

Sincerely,  
Barbie Waters
